looking backward reconnaissance preparing the way promise presence proscription compression intrusion illusion

of the 10 000 indians forced across the mississippi into eastern kansas before the middle of the 19th century a few have managed to walk the thin line between resistance to white culture and absorption into it herring an archivist with the national archive and records administration tells the story of those who are still indians and still in kansas

written in an easy to read narrative format this volume provides the most comprehensive coverage of north american indians from earliest evidence through 1990 it shows indians as a people with history and not as primitives covering current ideological issues and political situations including treaty

rights sovereignty and repatriation a must read for anyone interested in north american indian history this is a comprehensive and thought provoking approach to the history of the native peoples of north america including mexico and canada and their civilizations for native american courses taught in anthropology history and native american studies

it is often assumed that the judiciary especially the supreme court provides the best protection of our religious freedom louis fisher however argues that only on occasion does the court lead the charge for minority rights more likely it is seen pulling up the rear by contrast congress frequently acts to protect religious groups by exempting them from general laws on taxation social security military service labor and countless other statutes indeed legislative action on behalf of religious freedom is an american success story but one that renowned constitutional authority fisher argues has been poorly understood by most of us taking in the full span of american history fisher demonstrates that over the course of two centuries of american government congress has often been in the forefront of establishing and protecting rights that have been neglected denied or unrecognized by the court and that statutory provisions far outstrip in both number and importance the court cases that have expanded religious rights in this concise and insightful book fisher presents a series of important case studies that explain how supreme court rulings on religious liberty have been challenged and countermanded by public pressures legislation and independent state action he tells how religious groups interested in securing the rights of conscientious objectors received satisfaction by taking their cases to congress not the courts how public uproar over a 1940 supreme court ruling sustaining compulsory flag salutes resulted in a court reversal and how congress intervened in a 1986 ruling upholding a military prohibition of skullcaps for jews by describing other controversies such as school prayer indian religious freedom the religious use of peyote and statutory exemptions for religious organizations fisher convincingly demonstrates that we must understand the political and not just the judicial context for the safeguards that protect religious minorities as this book shows the origin and growth of an individual s right to believe or not believe and the securing of that right has occurred almost entirely outside the courtroom religious liberty in america persuasively challenges judicial supremacists on church state issues and provides a highly readable introduction for all students and citizens concerned with their right to believe as they wish

biography of 7 modern day native american military personnel or retirees

discusses events that took place before and after native american activism began includes a chronology from 1887 to 1988

native peoples of north america still face an uncertain future due to their unstable political legal and economic positions views of their predicament continue to be dominated by non indian writers in response a dozen native american writers here reclaim their rightful role as influential voices in debates about native communities these scholars examine crucial issues of politics law and religion in the context of ongoing native american resistance to the dominant culture they particularly show how the writings of vine deloria jr have shaped and challenged american indian scholarship in these areas since 1960s they provide key insights into deloria s thought while introducing some critical issues confronting native nations collectively these essays take up four important themes indigenous societies as the embodiment of cultures of resistance legal resistance to western oppression

against indigenous nations contemporary native religious practices and native intellectual challenges to academia essays address indigenous perspectives on topics usually treated by non indians such as role of women in indian society the importance of sacred sites to american indian religious identity and relationship of native language to indigenous autonomy a closing essay by deloria in vintage form reminds native americans of their responsibilities and obligations to one another and to past and future generations this book argues for renewed cultivation of a native american studies that is more indian centered

burton dissects the irreconcilable conflict of interest within the interior department between the bureau of reclamation and the bureau of indian affairs he also examines the methods of managing disputes in contemporary cases and offers original policy recommendations that include establishing an indian water rights commission to help with the paradoxical task now facing the federal government restoring to tribes the water resources it earlier helped give away
